

Shot from creek side of fallen tree looking back toward the road – body still buried

Close-up of Sentra ignition - ***ignition collar missing

Close-up of stripe shirt with blood stain, not soaked through – looks like some type of wipe

Shot of entire shirt

Shirt in driver seat of Sentra, crumpled in crevice of seat

Back seat of Sentra - black cleats, black backpack, black shoes, map book

Close-up of map book – map torn out of Balt. City/County line (Woodlawn area)

Shot of backseat of Sentra

Shot of Sentra from the front - parked in grass/paved parking area (possibly area where car was found)

*CONFIRMED AT TRIAL 3 - THIS IS
PICTURE OF SENTRA WHERE IT WAS FOUND*

Close-up shot of face – appears to have been taken during disinterment

****there appears to be blood in and around nose/mouth area of the victim***
Looks too bright to be lividity, maybe decomposition or animal activity?

Dr. Jones
confirmed
not blood

Close up of

Shot of body - place on a white tarp, appears to be next to burial site. Body is face up on tarp with either frost, mold, or adipocere visible. Rigor appears to be fixed, probably due to temp.
