Amended State's Disclosure

NOW come Patricia C. Jessamy, State's Attorney for Baltimore City, and Kevin Urick, Assistant State's Attorney, and in accordance with provisions of Rule 4-263(h) of the Maryland Rules of Procedure hereby promptly supplement the State's prior disclosure with the following additional witnesses and/or information:

1) On 9/24/99 Dr. Rodriguez orally reported that the state of the victim's body at the time of disinterment was consistent with the date of her disappearance;

2) On 9/30/99 Dr. Korrell orally reported that the state of the victim's body at the time of autopsy was consistent with the date of her disappearance;

3) The following three property submissions, which were previously disclosed on Tech. Sanders run sheets, were not properly entered into the Evidence Control Unit computer and hence do not appear on the computer printout of the evidence at ECU:

- Item 99008995 items in glove box of victim's car;
- Item 99008996 pair of black shoes in victim's car;
- Item 99008994 papers recovered from trunk of victim's car;

4) The State recently obtained homework assignments and other school papers of Hae Lee and Adnan Syed. These materials may be reviewed upon a reasonable request;

5) The State was able to ascertain that one page of the first polygraph administered to ██████████ the one dated February 18, 1999, was omitted in the original disclosure. A copy of the complete report is attached; the second report was submitted in its complete form;

6) A copy of an additional search and seizure warrant is attached;

7) The State expects to have certified copies of Don [REDACTED] work time sheets at the time of trial. These records may be reviewed upon reasonable request;

8) In response to the Defense's letter of September 28, 1999, the State avers: there has been no new evidence collected. Around the beginning of March a request was made for a DNA workup on property numbers 99008991 (shirt with suspected blood) and 99004674 (vial of victim's blood). That request was never processed. On August 31, 1999, Criminalist Salvatore Bianca issued a Trace Analysis report, previously disclosed, concluding that in fact Property No. 99008991 had red stains that were human blood. Subsequently, a DNA workup was requested for the stains, and the blood of Hae Lee, Adnan Syed, and Jay Wilds. That workup will probably not be available by the current trial date.
