Detectives' Notes on Date of Channel 36 Interview

(/docs/2/Detectives Notes on Date of Channel 36 Interview.pdf)

These notes, which were obtained from the Baltimore Police Department's file, show that the detectives also had questions about when the Channel 36 interview had been filmed: "Channel 36 When taped, when aired." What is significant is that these notes were written sometime in late March, because although the page is undated, the detectives to-do list references reference events and evidence that the police should not have been aware of before March 20th. That was nearly a month after the police had spoken to Athletic Director Graham. Although a police report stated that Graham had informed the detectives that filming had taken place on January 13th, something must have happened in the following weeks which called his statement in doubt, and caused the detectives to question when filming had really taken place.
